BE.S.T.

BENELLI SURFACE TREATMENT

Harsh environments wreak havoc on gun metal. Benelli spent more than a decade developing BE.S.T. (Benelli Surface Treatment), a proprietary coating that protects steel with a tough, impenetrable armor that stops rust and corrosion. Applied using nanotechnology and diamond-like carbon particles, BE.S.T. outperforms every other available coating and surface treatment in the firearms market today. Parts treated with BE.S.T. have been tested by immersing them in saltwater for months with no signs of rust or corrosion.

Benelli BE.S.T. surface treatment is simply the most effective rust and corrosion firearm protection available. Benelli is so confident in the BE.S.T. performance that treated parts are backed with a 25-year warranty against rust and corrosion. Available in 2024 on select SBE 3, ETHOS and Lupo models. See pages 4-5, 24-25, 54-55, 58-59, 64-66 and 70-71 for additional details.

In addition to Benelli's industry-leading 10-year warranty, BE.S.T.-treated barrels and parts carry a warranty against rust and corrosion for 25 years from the date of purchase.

An environmentally friendly, high-vacuum, radio-frequency plasma nanotechnology is used to bond the diamond-like carbon particles to the desired metal components.

A competitor's barrel showing the damage from 48 hours of saltwater exposure.

A Benelli BE.S.T.-treated barrel with no sign of rust or corrosion after 3 months of saltwater exposure.

BE.S.T.

The development of BE.S.T. technology

BE.S.T. (Benelli Surface Treatment) is a new proprietary finishing technology developed by engineers and scientists at Benelli's manufacturing headquarters in Urbino Italy. It is a hybrid Physical Vapor Deposition (PVD) and Plasma Enhanced Chemical Vapor Deposition (PECVD) technology that applies a protective coating to parts.

This coating provides corrosion and abrasion resistance that is superior to any other firearm finish on the market. PVD and PECVD processes utilize electricity, radio frequencies, and plasma in a high-vacuum environment to deposit a solid coating that precisely and uniformly covers the treated parts. Diamond-like carbon particles are applied using nanotechnology, resulting in an exceptionally hard surface that is difficult to scratch, and won't ever rust or corrode.

The graphitic components of the coating layer also greatly reduce the amount of oil and maintenance required. While these technologies have been used in many industries for some time, applying them to a shotgun barrels had never been practical until Benelli's breakthrough. Typical deposition processes operate at high temperatures. Treating a shotgun barrel in such an environment would ruin the ballistic properties of the barrel and weaken the strength of the barrel extension. Benelli's engineers created a process that completes the process at low temperature, maintaining the perfect ballistics of our Crio-treated barrels and the heat-treated strength of the barrel extension.

Benelli developed this chemical makeup and made modifications to machinery to apply the new BE.S.T. coating at low temperatures in order to make it usable on shotguns. As an added bonus, Benelli's new process produces no emissions or waste, poses no health or safety risks to operators, and is environmentally friendly.

SUPER BLACK EAGLE 3 — BE.S.T.

Benelli's Inertia Driven® System.

"THE LAW OF INERTIA"— is Newton's First Law of Physics and is as consistent and unchangeable as The Law of Gravity. Benelli has harnessed this basic law of physics in the Inertia Driven® System to operate the world's fastest, simplest and most reliable semi-automatic shotguns. It's not boasting, it's the law — The Law of Inertia.

RELIABLE — The Inertia Driven® System never needs adjusting and will cycle anything from light field loads to 3½" magnums with consistent reliability year after year. In fact, there are Inertia Driven® Benelli shotguns that have fired more than 500,000 rounds, still in the field and functioning perfectly.

SIMPLE — Inertia Driven® is simple with only three primary parts: the bolt body, the inertia spring and the rotating bolt head. Simple is better.

FASTER — By greatly reducing the mass of the system's parts, we made Inertia Driven® faster.

CLEANER — Gas, smoke and burned powder are not channeled into the gun's firing mechanism, as they are in gas systems, allowing more efficient operation and easier firearm cleaning.

STRONG — The strong steel locking lugs on the Inertia Driven® System's rotating bolt head not only lock steel-to-steel into the gun's barrel; the lugs lock-in even tighter during firing.

LOW MAINTENANCE — Because the Inertia Driven® System functions so much cleaner than conventional gas-operated semi-automatics, gun cleaning takes a fraction of the time. You spend more time shooting and less time cleaning.

LIGHT WEIGHT — The Inertia Driven® System is not only simple, it's also lightweight. Benelli shotguns are among the lightest semi-automatic shotguns ever produced. This allows for faster shouldering, quick target acquisition, easy-swinging follow through and less fatigue during long days in the field.

PERFECT BALANCE — With no springs, action bar linkage or heavy gas cylinder under the forend, Benelli's Inertia Driven® shotguns balance like fine game guns should.

Benelli's Crio System technology.

Cryogenic physics has revealed steel changes at the molecular level when cooled to -300° F. When a Benelli barrel is cryogenically treated, all the stresses caused by hammer forging are relieved and the surface of the bore becomes more even-grained. The result is a slicker surface offering less resistance to wads and shot charges. With smoother, more uniform surfaces, Benelli Crio® barrels deliver superior patterns and stay clean longer.

UNTREATED STEEL

CRYOGENICALLY TREATED STEEL

Crio® Chokes are the second part of the Benelli Crio® System. Extra-long choke tubes with more gradual constriction, coupled with the slick surface created by cryogenic treatment, put more pellets on target and yield denser, more uniform shot patterns.

UNTREATED
Irregular and uneven shot pattern.

CRYOGENICALLY TREATED
Denser and more uniform shot pattern.

The Crio® System combines a barrel frozen to -300° F with a specially designed longer choke tube that is also cryogenically treated. The result is a denser, more uniform shot pattern that puts more pellets on target.

Benelli's unrivaled recoil-reduction systems.

Benelli has developed the performance of recoil-reducing technology to a level that leaves the competition behind. Three recoil-reduction systems have been optimized specifically for the platforms they serve, delivering unrivaled results in reducing felt recoil.

AVAILABLE MODELS:
ETHOS LUPO HPR
828U SBE 3 Wood
LUPO

The Progressive Comfort recoil-reduction system is an unobtrusive, lightweight and simple system. It's able to self-adjust for maximum recoil reduction related to the power of the load used because it has three sets of interlocking leaves, or fingers, with different levels of elasticity. This system is out of sight inside a wooden stock to better maintain a traditional look.

Progressive Comfort

AVAILABLE MODELS:
Super Black Eagle 3
ETHOS Cordoba BE.S.T.
ETHOS SuperSport
R1 Endurance

ComforTech™ was the first recoil-reduction system of its kind. By splitting the stock diagonally and utilizing shock-absorbing chevrons, the entire stock was transformed into a recoil pad. This chevron system, now 16 years old, is still the most efficient design available and was the basis for the SBE 3 stock. The chevron size and location has been optimized on ComforTech 3. Further, Benelli engineers created a new cheek-comb pad called Combtech, which greatly reduces facial impact and vibrations.

ComforTech® 3

AVAILABLE MODELS:
Super Nova
M2 Tactical

Benelli's ComforTech™ system revolutionized shooting comfort by reducing felt recoil without adding weight. Originally designed for the SBE II platform, its success and popularity compelled us to offer it in other Benelli models.

ComforTech®

Benelli's unmatched 10-year warranty. Our industry-leading 10-Year Warranty (U.S. only), guarantees if anything should go wrong under normal use, your firearm will be serviced by skilled gunsmiths at our national firearm service center. While your Benelli is under warranty, we will assume the cost of parts, labor and shipping required to get your firearm back to you and working perfectly.

SUPER BLACK EAGLE 3

ComforTech 3 System Provides Greater Recoil Reduction

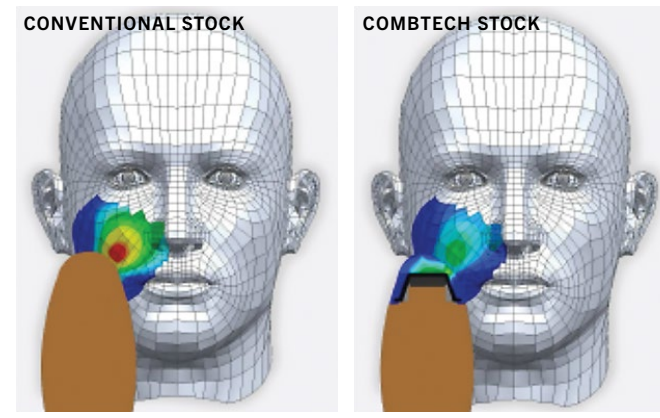

Dominate the skies with the Super Black Eagle 3

SBE 3—The full redesign of our venerable Super Black Eagle platform. With carefully considered insights from our pro-staff and veteran hunters, Benelli design engineers have spent nearly 10 years in development focused on areas of critical importance to serious hunters. These included improved ergonomics; intuitive, flawless functionality; updated design, style and feel for the latest in modern hunting reliability that's all about the endgame, and absolute superiority in the most unforgiving conditions.

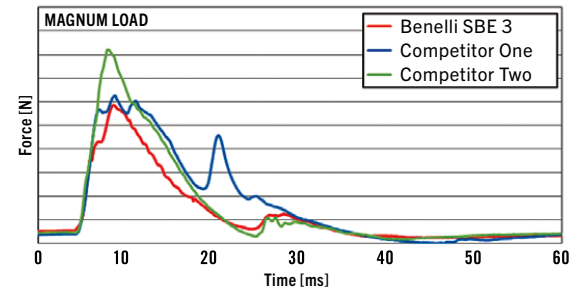

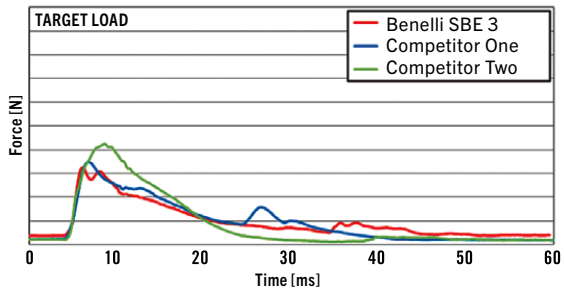

The inside of the ComforTech 3 stock has been redesigned as well. This new rigid stock-mounting system reduces rotational and lateral movement while still retaining recoil-reduction properties.

When considering total recoil, vibrations and impact to the face are often overlooked. Benelli realized that improvements could be made to the stock comb to reduce facial impact and developed the Combtech system. Combtech is simple but highly effective in reducing force transferred to the cheek area, resulting in a softer-shooting gun that allows you to shoot better.

The removable, extra-soft Combtech recoil pads require no tools, making field adjustments or replacements fast in even the coldest, wettest conditions. Optional pads of varying height are available if needed.

ComforTech 3 advancements focus on recoil reduction in both the shoulder and, equally important, the face (as seen in the facial recoil-mapping illustrations on page 9).

Enhanced comfort and less recoil drastically reduce flinching on the first shot, resulting in faster follow-up shots, more pellets on target and more birds down.

The Combtech pad is easily removed from the ComforTech 3 stock by simply pulling the release tab upward and toward the rear of the buttstock.

SUPER BLACK EAGLE 3

Inertia Driven System

The hallmark of Benelli strength and reliability, our clean-burning Inertia Driven System never requires adjusting, cycles consistently in conditions that border on unfair, and easily handles everything from light field loads to 3½" magnums.

From a cleanliness and speed perspective, gas systems simply cannot compete—whereas Inertia-Driven Benelli shotguns are known to fire 500,000+ rounds and still function flawlessly.

Easy-Locking Bolt System

Versatility without compromise: having a shotgun with a 3½" chamber does not mean you must always shoot the powerful stuff. The SBE 3's patented locking mechanism works flawlessly with all shotgun loads—from light clay loads to the ultimate goose-busters.

◀ A spring-activated ball detent slides effortlessly in the bolt, locking it into battery no matter the pressure. Also, if the bolt is accidentally bumped or pulled back even by a small amount, the detent's pressure will guide it back into the locked position. Result: the SBE 3 will always be ready to fire when you are and with whatever shotshells you choose.

Quicker and Easier Operation

A larger bolt release and safety along with an outward angled drop lever make the SBE 3 quicker and easier to operate—even with gloved hands.

Easy-Loading System

A beveled loading port, redesigned carrier and a new two-piece carrier latch have all been incorporated into the new Super Black Eagle 3 to make loading the magazine effortless.

During loading, only the front section of the Easy-Loading System's two-piece carrier latch actually moves, allowing shells to slide up easily with minimal tension or possibility of jamming. ▶

Grooves in the loading port help you guide shells in without having to take your eyes off incoming birds. The new, beveled loading port also features a wider design to help funnel shells toward the magazine, a must for gloved hunters. ▶

Super Black Eagle 3 Dominate the Skies

SUPER BLACK EAGLE 3 BE.S.T. – 12-GA, 3½"
ITEM # 12102 Black synthetic

Launched in 1991, the Super Black Eagle quickly reset reliability expectations for semi-automatic shotguns. Today, with the third generation of the SBE, this legendary reliability has been carried forward by combining modern technology with improved ergonomics.

BE.S.T.

An upsized bolt handle teams with an enlarged bolt release and oversized safety to make operation easier with cold or gloved hands.

Our redesigned triangular mag cap has more pronounced edges, allowing for excellent grip and leverage when tightening or loosening in wet, cold conditions.

SUPER BLACK EAGLE 3 – 12-GA, 3½"

STANDARD FEATURES

- EXTENDED CHOKE TUBES:** IC, M, Crio® chokes.
- FLUSH CHOKE TUBES:** C, IM, F Crio® chokes and wrench.
- FINISHES:** BE.S.T. Treatment, Realtree® Max-7, Black synthetic, Mossy Oak® Bottomland,™ GORE™ OPTIFADE™ Timber, GORE™ OPTIFADE™ Marsh, GORE™ OPTIFADE™ Timber/Tungsten Cerakote, Satin walnut, GORE™ OPTIFADE™ Marsh/Patriot Brown Cerakote.
- BARRELS:** Crio®-treated barrel.
- RECOIL PADS:** Comfort Tech® 3 recoil pads and Combtech pads.
- SHIM KIT:** For adjustment of drop and cast.
- HARD CASE:** Custom fitted hard case to protect during transport (not included with SteadyGrip™ model).

OPTIONAL FEATURES

- CHOKE TUBES:** Extended Crio® chokes C, IM, F and XF for turkey.
- COMFORTTECH 3 RECOIL PADS:** Three options to customize length of pull to 13⁷/₈", 14³/₈" or 14³/₄".
- COMB-TECH® RAISED COMB PADS:** Two options to customize sight plane for different shooting scenarios.

Super Black Eagle 3

Dominating the Skies
for Three Decades

SBE 3
28 - GAUGE
3" CHAMBER

SBE 3
20 - GAUGE
3" CHAMBER

The Benelli Super Black Eagle semi-automatic shotgun sets the standard of excellence for hunting firearms. It's been dominating the skies for decades as Benelli's innovative engineers continued to refine the original SBE design by adding new performance-enhancing technologies such as recoil-reducing ComforTech® 3, shock-absorbing Combttech, Perfect Fit drop and cast adjustment, and the ultra reliable Inertia Driven® system. Add to those more subtle improvements such as a carbon-fiber stepped rib, easy-locking bolt system, an enlarged bolt handle and bolt release, a fiber-optic front sight, extended Crio choke tubes, sling attachment points and more, and you've got SBE3 shotguns ready to dominate the skies for years to come.

Benelli offers the SBE3 in 12-gauge, 20-gauge, and now a new 28-gauge model, all chambered to accept shells up to 3". Enjoy all the features, attributes and excellence of the SBE3 3.5" models in versions that are a little lighter but just as effective and enjoyable to shoot.

SUPER BLACK EAGLE 3 – 12-GA, 3"
ITEM # 10353 Mossy Oak® Bottomland™

Launched in 1991, the Super Black Eagle quickly established dominance of both the skies and the hunting shotgun market. Today, the third generation of the SBE platform carries forward Benelli's reputation for reliability and innovation in the SBE3. Optimized for hunting by integrating the latest ergonomic science, recoil-reducing technology and hunt-enhancing performance features, the SBE3 is now available in a 12-gauge model chambered for 3" shells. You get the legendary all-weather performance and rugged reliability of the SBE3, 3.5"-inch models in a shotgun made to shoot both 3" and 2-3/4" shells.

COMFORTECH 3

When wave after wave of ducks are settling into your decoys or flocks of low-flying doves come in one after another, you'll appreciate the lighter recoil of a 20-gauge shotgun. Benelli's Super Black Eagle shotguns have been dominating such situations for a generation, and the 20-gauge SBE3 is perfect for both high-volume shooters and hunters who are a bit more recoil sensitive. This shotgun delivers all the performance, reliability and comfort features of the 3.5"-chambered SBEs in a 20-gauge model able to shoot 3" and 2-3/4" shells. It's lightweight, smooth-swinging, quick and a joy to shoot all day long.

An upsized bolt handle teams with an enlarged bolt release and oversized safety to make operation easier with cold or gloved hands.

Each SBE 3 comes complete with two Crio extended chokes (one pre-installed), three flush-mount Crio chokes, a shim kit, a choke wrench and a custom-fitted hard case.

The sub-gauge wave is sweeping the hunting community, and Benelli is on top of it with this new 28-gauge offering of our renowned Super Black Eagle. If you hunt in an area that requires use of smaller gauges, or just want the added challenge they offer, this is the shotgun for you! It delivers all the rugged reliability, performance and shooting comfort of larger SBE-3s, along with all the Benelli technology and comfort features, in a super-light and fast-handling shotgun that's downright addicting to shoot. Available in your choice of three camo patterns or black. Shoots both 3" and 2-¾" shells.

The SBE 3 28-gauge models include a carbon-fiber rib and a fiber-optic red-bar front sight.

28-GAUGE MAGNUM LOAD ENERGY COMPARISON

Benelli's dynamic design includes a patented easy-loading system that features a new two-part carrier latch, beveled loading port and redesigned carrier that ensures shells will glide into the magazine faster and easier. A new larger bolt release, easy access cartridge-drop lever and larger trigger guard promote quick handling, even when wearing gloves.

28-GAUGE, 3-INCH MAGNUM LOAD

This cartridge gives you the same velocity as a standard 2¾" 28-ga. load but with ¼ oz. more shot. The result is a 25% increase in knockdown power and 20% more pellets on target at 35 yards, giving you that extra edge for late-season birds. With the Progressive Comfort system of the ETHOS soaking up any additional recoil, you get the ballistic advantage of a 20-ga. in an easy handling 28-ga. package.

The ETHOS, an elegant semi-automatic shotgun, is the culmination of Benelli's latest innovations, refinements and design superiority, all centered around the core—our Inertia Driven® System. The ETHOS is built on a platform that combines form and function for improved ergonomics, the ability to cycle the lightest loads, even ⅞ ounce (12-ga.), and patented recoil systems to provide greater recoil reduction.

STANDARD FEATURES

Ethos Cordoba BE.S.T.
Where Style and Excellence Meet

BE.S.T.

ETHOS CORDOBA BE.S.T. – 20-GA, 3"
ITEM # 10643 Black synthetic
(See pages 2-5 for details on BE.S.T. technology)

Sporting a sleek profile and equipped with the latest Benelli technology, our ETHOS Cordoba BE.S.T. shotguns deliver unmatched semiautomatic performance. Ported barrels team with our ComforTech® recoil-reduction system to make shooting a pleasurable experience. Our proven Inertia Driven® System ensures flawless reliability in any weather when cycling anything from heavy 3-inch 12-ga. magnums to the lightest 7/8 ounce loads. Each has a beveled loading port to promote fast reloading. A large bolt handle and enhanced trigger guard aid shooters wearing gloves. Benelli Surface Treatment (BE.S.T.) on external metal surfaces offers a level of protection from rust and corrosion that competing surface treatments can only aspire to.

ETHOS

A wide Broadway sight channel on the carbon-fiber rib of the ETHOS Cordoba BE.S.T. works with fiber-optic and mid-rib beads to guide your eye to the target quickly.

ETHOS CORDOBA BE.S.T. – 12-GA, 3"

Ethos SuperSport Big Performance, Small Recoil

 INERTIA DRIVEN SYSTEM

ETHOS

The ETHOS SuperSport combines the excellence of our popular ETHOS Sport model with a new, lightweight, weather-resistant carbon-fiber finish for unmatched performance in any weather. The synthetic stock accommodates our ComforTech 3 recoil-reduction system that teams with a ported barrel to mitigate recoil and muzzle jump. A fiber-optic front sight with a red insert, combines with a mid-rib bead inside a sight channel atop the wide rib to offer instinctive aiming. A beveled loading port speeds reloading. Five extended choke tubes are included to facilitate quick changes in the heat of competition.

A front fiber-optic and mid-barrel bead set in the Broadway sight channel on the carbon-fiber rib naturally guide your eye to the target shot after shot.

 **PROGRESSIVE COMFORT**

ETHOS – 20-GA, 3"
ITEM # 10455 AA-Grade satin walnut

Benelli is a company of avid shotgunners who never stop thinking about new and innovative ways to make our products even better. The sporting version of the ETHOS perfectly embodies this "ethos." Using the popular field model as a basis, we refined the recoil-absorbing cheek-comb pad, raised the wide sporting rib, and outfitted the barrel with porting to get your second shot on target quickly. Available in 12- and 20-gauge models, it cycles even the lightest target loads (e.g., 7/8 oz. in 12-gauge).

ETHOS SPORT

ITEM NUMBER	BARREL LENGTH	STOCK	OVERALL LENGTH	AVERAGE WEIGHT	MSRP
ETHOS 12-GAUGE 2¾" AND 3" – NICKEL-PLATED RECEIVER

ETHOS 20-GAUGE 2¾" AND 3" – NICKEL-PLATED RECEIVER					
10455	28"	AA-Grade satin walnut	49.5"	5.7 lbs.	\$2349

COMMON SPECIFICATIONS: Magazine Capacity: 4+1 (2+1 28-ga.) Extended Crio® Chokes: C, IC, M, IM, F Type of Sights: Fiber-optic front sight with red insert and metal bead mid-sight Length of Pull: 14¼" Drop at Heel: 2¼" Drop at Comb: 1½" Minimum recommended load: 7/8-oz. loads

SPECIFICATIONS AND PRICES SUBJECT TO CHANGE WITHOUT NOTICE.

STANDARD FEATURES

- EXTENDED CHOKE TUBES:** C, IC, M, IM, F Crio® choke tubes and wrench.
- FINISH:** AA-Grade satin walnut.
- RECEIVER:** Nickel-plated.
- SHIM KIT:** For adjustment of drop and cast.
- HARD CASE:** Custom-fitted hard case to protect during transport.

OPTIONAL FEATURES

- CHOKE TUBES:** Flush chrome Crio® choke tubes C, IC, M, IM, F.

Extended choke tubes optimize patterns and are quickly changed in the heat of competition. Porting minimizes barrel jump, and the high-visibility sight makes lining up your shot easy.

The rib of the ETHOS Sport has some substantial differences from its field counterpart. It is not only wider and higher, but also features a smooth-textured central "sight channel" that naturally guides your eye to the target.

M2 Field

Workhorse Rugged with Thoroughbred Speed

M2 FIELD – 12-GA, 3" ITEM # 11165 Realtree® Max-7™

Rugged, fast and relentlessly reliable, the M2 Field is the legendary workhorse of the Benelli line of semi-automatic shotguns. Known for its ability to flawlessly cycle everything from light 2¾" target loads to heavy 3" magnums, the M2 is a popular choice for waterfowlers and turkey hunters alike. Available in 12- and 20-gauge with 24-, 26-, or 28-inch barrels and a variety of synthetic stock options.

Montefeltro Sporting

Smooth-Swinging, Fast-Shooting

NEW!

INERTIA DRIVEN SYSTEM **MONTEFELTRO SPORTING – 20-GA, 3"**
ITEM # 10896 A-Grade satin walnut

The perfect on-ramp to Benelli's renowned clay and field shotguns, the new Montefeltro Sporting combines an ergonomic, slim forend and exceptional balance with 30-in. (12-ga.) or 28-in. (20-ga.) barrels to deliver a clay and dove buster designed for comfortable, all-day shooting. The high-profile stepped vent rib and mid-bead allows an elevated hold, promoting good eye alignment and enhanced visibility on fast-moving targets while the ported barrel mitigates recoil for lightning-quick follow-up shots. Balanced for smooth, clean swings, the Montefeltro Sporting is your gateway to the Benelli experience.

Montefeltro Ultra Light

Featherweight Handling for Field and Bush

NEW!

INERTIA DRIVEN SYSTEM **MONTEFELTRO ULTRA LIGHT – 12-GA, 3"**
ITEM # 10911 AA-Grade satin walnut, WeatherCoat™

When enjoying long days on the prairie or scrambling through the grouse woods, veteran uplanders know that ounces equal pounds. That's why Benelli engineers developed the Montefeltro Ultra Light. Boasting a shortened mag tube (that can be extended when needed) and a carbon-fiber rib with 26-in. (12-ga.) and 24-in. (20-ga.) barrels, the Montefeltro Ultra Light features the Benelli Inertia Driven System, providing effortless cycling of even light loads to further reduce weight so you can stay in the game for "just one more."

Semi-Auto Defense Guns

Reliability When It Counts The Most

M4 Tactical

M4, TACTICAL STOCK – 12-GA, 3"
ITEM # 11703 Black synthetic, Ghost-ring sight

M4 H₂O, PISTOL GRIP – 12-GA, 3"
ITEM # 11794 Black synthetic, Titanium Cerakote finish, Ghost-ring sight

Benelli's M4 Tactical is a unique Auto Regulating Gas-Operated (A.R.G.O) semi-automatic shotgun, upon which the U.S. Marine Corps depends. The M4 Tactical comes standard with a Picatinny rail and tactical stock. Other features include a fully adjustable ghost-ring aperture rear sight and windage-adjustable front sight. The M4 is also available with a durable, weather-beating Titanium Cerakote finish.

M4 STANDARD FEATURES

CHOKE TUBES: M.
FINISHES: Black synthetic. Titanium Cerakote.
SIGHTS: Ghost-ring.
DRILLED & TAPPED

M4 OPTIONAL FEATURES

TRITIUM INSERTS: Three-dot tritium inserts available for ghost-ring sights.

M2 and M3 Tactical Models

M2 TACTICAL, PISTOL GRIP – 12-GA, 3"
ITEM # 11052 Black synthetic, Ghost-ring sight

M2 TACTICAL, COMFORTECH® – 12-GA, 3"
ITEM # 11029 Black synthetic, Ghost-ring sight

M3 CONVERTIBLE, PISTOL GRIP – 12-GA, 3"
ITEM # 11606 Black synthetic, Ghost-ring sight

Benelli's M2 Tactical Shotgun has passed the test of time; establishing itself as the shotgun of choice for serious tactical needs. Outfitted with Benelli's Inertia Driven® technology, it utilizes recoil energy to cycle the action and eliminate fouling problems.

The M3 offers the option of choosing either semi-auto or pump-action operation, depending on the intended purpose. It's easy to select fast-cycling semi-auto fire with conventional loads or you can choose pump-action for low-energy special purpose loads.

M2/M3 STANDARD FEATURES

CHOKE TUBES: Crio® IC, M & F on M2- fixed C on M3 Convertible- Standard M on M4.

FINISHES: Black synthetic.

SIGHTS: M2 Tactical in ghost-ring and open rifle. M3 Convertible ghost-ring only.

DRILLED & TAPPED: Standard on M2 ghost-ring.

M2 OPTIONAL FEATURES

GEL RECOIL PADS: Three options to customize length of pull (ComforTech® only).

TRITIUM INSERTS: Three-dot tritium inserts available for ghost-ring sights.

BARRELS: A variety of field and slug barrels available.

The Nova is truly a 21st century pump-action shotgun. Corrosion-proof polymer is overmolded on a skeleton framework to form the one-piece receiver and buttstock in a revolutionary shotgun-manufacturing process.

The button on the underside of the forend activates a shell stop, allowing a chambered shell to be removed without releasing rounds from the magazine.

Ergonomic grooves on the Nova pistol grip provide a positive gripping surface and distinctive look on Benelli's original pump gun.

828 U

A shotgun built on imagination, not on past inspiration.

The first O/U inspired by innovation that breaks the traditional mold.

Steel locking system

Benelli's patented steel locking system eliminates wear and tear on the receiver and hinge that can cause traditional O/U's to fail. By incorporating this locking system into an aluminum receiver, we created a stronger, safer, lighter O/U that's perfectly balanced and weighs only 6.5 pounds.

Opening lever

The 828U strikers reset when the top lever is unlocked, instead of when the barrels open as in traditional O/U's. This creates a smoother, more consistent opening action. Left-hand models are now available, which include a left-handed opening lever.

Steel locking plate

The heart of Benelli's Steel Locking System is a solid steel breech block that locks directly to the rear of the barrel. This contains all pressure from the shotshell inside and prevents its transfer to the receiver and hinge pins.

Impulse-activated ejectors

The ejector system in the 828U is entirely contained on the barrel. Pressure activates the ejector when the shell is fired. This innovative design eliminates need for linkages between the trigger group and the forend, resulting in a stronger, more streamlined ejector system.

Adjustable drop and cast

Benelli has created the first O/U that allows for a custom-fit stock. With five drop and four cast shims, the 828U can be adjusted to one of 40 possible stock positions. The adjustable stock allows shooters to find natural alignment with the barrel and target, which results in superior accuracy.

Removable trigger group

The compact and removable trigger group makes for easier cleaning and eliminates complicated linkage between the forearm and trigger mechanism, significantly increasing reliability.

PROGRESSIVE COMFORT

Progressive Comfort and the 828U

The Progressive Comfort System is housed within the 828U's walnut stock. The progressive nature of the system allows for consistently smooth levels of recoil absorption with all shotshell loads, light or heavy.

Stage 1 of recoil

When a light load is fired, the first set of buffers (shown in yellow) engages and compresses to absorb recoil energy.

Stage 2 of recoil

When firing more powerful shells (heavy field loads), the second set of buffers (shown in orange) engages after the first set has compressed to absorb more recoil.

Stage 3 of recoil

The third and most rigid set of buffers (shown in red) comes into play when a magnum load is fired, providing a final layer of cushioning from recoil produced by the heaviest shotshell loads.

828U

Ultimate Integration of Design, Comfort and Technology

COMMON SPECIFICATIONS: Crio® Chokes: C,IC,M,IM,F Type of Sights: Fiber-optic front sight with red insert Length of Pull: 14¾" Drop at Heel: 2½" Drop at Comb: 1½"

A shotgun that feels and shoots like a Benelli from the moment you pick it up to the moment your target falls.

Innovation and inspiration combined to create the 828U – the first O/U worthy of the Benelli badge. With the strength of steel and the light weight of aluminum, the 12-gauge 828U redefined the upland game shotgun category. Now also available in 20-gauge.

The 828U features a patented steel locking system and plate, which eliminates the transference of stress-causing shot pressure to the receiver and hinge pins. A compact, easily removable trigger group increases safety, reliability and ease of cleaning. The unique opening lever provides a smoother, more consistent opening action. From butt to muzzle, there is nothing conventional about the Benelli 828U.

STANDARD FEATURES

CHOKE TUBES: C, IC, M, IM, F Crio® choke tubes and wrench.

828U Sport

A Leader in Performance and Innovation

828U SPORT – 12-GA, 3"
ITEM #10730 Matte blued steel,
AA-Grade Satin walnut

Benelli delivers innovative performance advantages in its 828U Sport. A patented steel locking system reduces wear on the receiver and hinge, a point where lesser break-action guns fail. Integrated adjustment capability helps you tailor the balance point for optimal performance. Tune the trigger position to your finger length. A sight channel in the wide rib over anti-glare barrels aids fast target alignment with the white bead sight. Cryogenic barrel and choke treatment results in consistent patterns and more pellets on target. These enhancements and more make the 828U Sport a standout among sporting over/under shotguns.

828U

The 828U Sport's trigger can be moved forward or backwards so your finger sits exactly where you want. Customize it to your finger length.

A patented steel locking system delivers consistently reliable lock-ups while eliminating wear and tear on the receiver hinges - a vulnerability in shotguns costing far more.

Each 828U Sport comes with five extended nickel/colored chokes, drop and cast shims for a custom fit, balance weights, a manual, a trigger tool, a choke wrench and oil.

Progressive Balancing

A balanced shotgun is essential for consistent performance. Our engineers created an innovative adjustable balance system using small weights in the buttstock. Add or remove them to move the gun's center of balance fore or aft.

 **PROGRESSIVE COMFORT**

 **LOCK PLATE**

 **PERFECT FIT**

828U

This new version of our already superb 828U is outfitted with a sleek steel receiver that adds just enough weight to help mitigate the recoil of heavier upland loads and deliver a smooth, even swing on fast crossing shots. The handsome brushed gray receiver and gloss-finished barrels provide an elegant look in the field or on the clays range and the Progressive Comfort System contained within the striking AA-Grade walnut stock makes shooting the 828U a joy. Our patented, rock-solid steel locking system, top lever trigger reset and an ejector system contained entirely inside the barrels round out the innovations on this outstanding firearm. The 12-gauge is available with 26-, 28- or 30-inch barrels and the 20-gauge is available with 26- or 28-inch barrels.

CHOKE TUBES: Extended chrome Crio® choke tubes C, IC, M, IM, F.

Benelli's patented steel locking system eliminates wear and tear on the receiver and hinge that can cause traditional O/U's to fail. By incorporating this locking system into our steel receiver, we have created a stronger, safer O/U that's smooth swinging and perfectly balanced.

Performance Shop

Optimized For Quick-Shooting Accuracy

828U UPLAND – 12-GA, 3"
ITEM #10700 Anodized bronze/matte blue, AA-Grade Satin walnut

 **PROGRESSIVE COMFORT**

 **LOCK PLATE**

 **PERFECT FIT**

828U

Enjoy the benefits of a superb 828U over/under optimized for fast handling and accuracy. The slightly shorter length of pull and 24-inch barrels promote control and speed. Lengthened forcing cones team with included Triple Threat® chokes to produce tighter patterns over longer ranges. With the 12-gauge weighing in at less than 6.5 lbs. and the 20-gauge tipping the scales at just 5.8 lbs., these guns are a joy to carry all day. Shells are partially extracted, not ejected, for complete control of loading and unloading. Carbon-fiber stepped rib with easy-to-see fiber-optic front sight. Tang-mounted automatic safety with barrel selector can be made into a manual safety. Included shims facilitate dozens of adjustments for a custom fit. Comes with a total of eight chokes.

PERFORMANCE SHOP – 828U UPLAND

ITEM NUMBER	BARREL LENGTH	STOCK	OVERALL LENGTH	AVERAGE WEIGHT	MSRP
12-GAUGE 2 3/4" & 3" – BRONZE ANODIZED RECEIVER					
10700	24"	AA-Grade satin walnut	41.25"	6.4 lbs.	\$3999
20-GAUGE 2 3/4" & 3" – BRONZE ANODIZED RECEIVER					
10712	24"	AA-Grade satin walnut	41.25"	5.8 lbs.	\$3999

COMMON SPECIFICATIONS: Crio® Chokes: C, IC, M, IM, F Type of Sights: Fiber-optic front sight with red insert Length of Pull: 14 3/4" Drop at Heel: 2 1/2" Drop at Comb: 1 1/2" Shell Extractors

The compact and removable trigger group makes for easier cleaning and eliminates complicated linkage between the forearm and trigger mechanism, significantly increasing reliability.

Benelli's patented steel locking system eliminates wear and tear on the receiver and hinge that can cause traditional O/U's to fail. By incorporating this locking system into an aluminum receiver, we created a stronger, safer, lighter O/U that's perfectly balanced and weighs only 6.4 pounds.

The 828U Performance Shop Upland includes five flush choke tubes plus the Triple Threat® Series Choke System, which consists of the T1 (close-range), T2 (mid-range) and T3 (long-range) extended chokes.

Performance Shop ETHOS Supersport AI

NEW!

INERTIA DRIVEN SYSTEM
ETHOS SUPERSPORT AI – 12-GA, 3"
ITEM #12616 Carbon-fiber finish

ITEM NUMBER	BARREL LENGTH	STOCK	OVERALL LENGTH	AVERAGE WEIGHT	MSRP
ETHOS SUPERSPORT – 12-GAUGE 2¾" AND 3"					
12616	30"	Carbon-fiber finish	51.5"	7.0 lbs.	\$3399

COMMON SPECIFICATIONS: Barrel: Advanced Impact Crio® barrel Bolt: Briley® EZ bolt release and enlarged bolt-operating handle Recoil Reduction: Benelli Comfort Tech® 3 System with Briley® 6-oz. weighted forend cap Magazine Capacity: 4+1 Advanced Impact Extended Crio® Chokes: C, IC, M, IM, F Briley Spectrum A.I. Extended Chokes: SK, IC Type of Sights: Fiber-optic front sight with red insert and metal bead mid-sight Length of Pull: 14½" Drop at Heel: 2¼" Drop at Comb: 1½" Minimum recommended load: ¾-oz. loads.

SPECIFICATIONS AND PRICES SUBJECT TO CHANGE WITHOUT NOTICE.

The Performance Shop ETHOS SuperSport guns feature: A.) a Briley EZ. bolt release and ergonomic bolt-operating handle; B.) a custom 6-ounce weighted forend cap for great forward balance; and C.) Advanced Impact extended, Crio choke tubes.

The ETHOS Supersport A.I. is the first competition shotgun from the Benelli Performance Shop to feature the all-new A.I. (Advanced Impact) barrel system and A.I. Crio® choke tubes. Offered in 3-in. 12-ga., the ETHOS Supersport A.I. cuts a fine figure on the range with its carbon-fiber finish, Comfort Tech® 3 recoil reduction system, nickel-plated receiver, and red anodized Briley bolt handle, bolt release, and weighted forend cap.

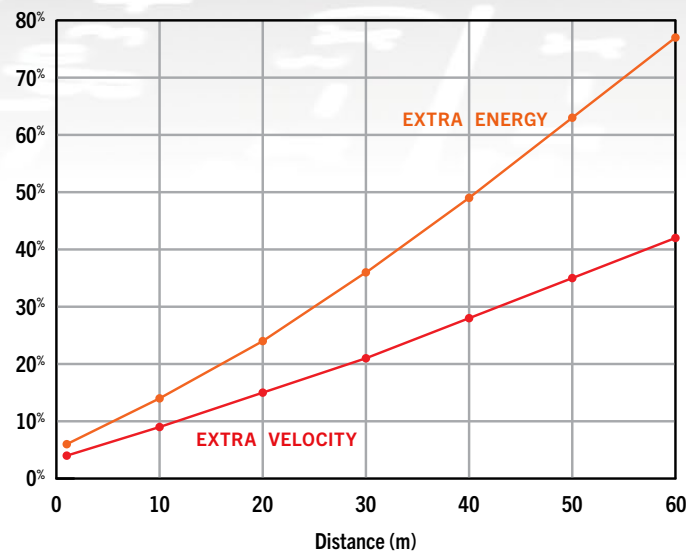

BENELLI ADVANCED IMPACT

Benelli Advanced Impact – It's all about improvement in ENERGY and VELOCITY, significantly improving both, the further the shot travels away from the muzzle, when compared to existing barrel technology.

ADVANCED IMPACT BALLISTICS

DISTANCE (METERS)	EXTRA VELOCITY	EXTRA ENERGY
1	4%	6%
10	9%	14%
20	15%	24%
30	21%	36%
40	28%	49%
50	35%	63%
60	42%	77%

In its simplest form, Advanced Impact technology is revolutionary new ballistic contours within the barrel's bore. It is a system, consisting of the new bore contours and new Advanced Impact CRIO Chokes.

Benefits of Benelli's Advanced Impact technology:

Improved Penetration
– Testing reveals ~50% deeper penetration

Improved Pellet Density
– Testing shows a more uniform and cylindrical shot string

All that adds up to *greatly improved stopping power* compared to other existing barrel technology.

Performance Shop Ethos Cordoba A.I. BE.S.T.

NEW!

ETHOS CORDOBA A.I. BE.S.T. – 12-GA, 3"
ITEM # 10641 Black synthetic

Developed for those who demand the most out of their firearms, the Performance Shop ETHOS Cordoba A.I. BE.S.T. blends the fine balance and reliable performance of the Performance Shop ETHOS Sport A.I. and ETHOS Supersport A.I. competition models with a rugged stock and finish that is ready to take on any adventure...in any weather. With its performance-enhanced Advanced Impact (A.I.) barrel profile and A.I. Crio choke system boosting velocity and energy as the shot moves away from the muzzle—all while offering denser and more uniform pellet distribution downrange—the Performance Shop ETHOS Cordoba A.I. BE.S.T. is a gamechanger. What's more, the sleek, black synthetic furniture and Benelli's BE.S.T. metal finish ensures this shotgun will withstand the harshest conditions.

PERFORMANCE SHOP – M2 3-GUN EDITION

ITEM NUMBER	BARREL LENGTH	STOCK	OVERALL LENGTH	AVERAGE WEIGHT	MSRP
M2 12-GAUGE 2¾" AND 3"					
11022	24"	Black synthetic	45.5"	6.75 lbs.	\$2599

COMMON SPECIFICATIONS: Magazine Capacity: 3+1 Crio[®] Chokes: C, IC, M, IM, F Type of Sights: HIVIZ Comp front sight, XS Sight Systems Express Sight Length of Pull: 14¼" Drop at Heel: 2" Drop at Comb: 1¼" Minimum recommended load: 3-dram, 1¼-oz. loads (12-ga.). Nordic bolt handle. RCI-XRAIL port caddy and bolt release button. RCI-XRAIL loading port modifications and TTI Custom carrier to increase speed of reloading.

Operation of this fine-tuned M2 is enhanced by incorporating custom parts from Nordic Components and RCI-XRAIL. The upgrades include a Nordic extended tactical-style bolt handle, and an oversized bolt release and port caddy from RCI-XRAIL.

The loading port has been modified to accommodate quad-loading, and a custom carrier from TTI has been installed to assist with the speed and ease of loading the magazine.

Multi-gun and tactical shotgun competitions push firearms to their limits by demanding the highest levels of reliability and accuracy. Benelli's popular Performance Shop M2 3-Gun shotgun sports a large loading port for greater efficiency when quad loading, an XS express rear sight for slug accuracy, and a port caddy for a spare shell. Benelli's M2 has a stellar reputation as the shotgun of choice for serious 3-gun competitors. Available in 12-gauge only, accepts shells to 3 inches.

SBE 3 WATERFOWL EDITION – 28-GA, 3"
ITEM # 11357 Matte Labrador Gray BE.S.T./Anodized, GORE™ OPTIFADE™ Waterfowl Timber

Benelli's Performance Shop faced a formidable challenge when we asked it to customize our already legendary SBE 3 semi-automatic shotgun for serious waterfowlers. They began by crafting an oversized bolt handle and enlarged bolt release to accommodate hunters wearing gloves. A HIVIZ® CompSight® was added for a better sight picture in low light. The forcing cone was lengthened and polished, and three Rob Roberts RRaptor® choke tubes were provided to ensure superior patterns. In fact, SBE3 Waterfowl Edition models are test-fired with a computerized pattern analysis machine to verify consistent and even patterns. 12-, 20- and 28-ga. models are available.

Tan/Black Webbing, Matte BE.S.T. (See page 70)

The measure of a hunting rifle is not how good it can be, but how good it is straight out of the box. Benelli set a high bar when developing the LUPO bolt-action rifle platform, and we delivered, giving hunters a gun that guarantees 3-shot MOA accuracy right from the factory when shooting premium ammunition. Featuring a precision-manufactured Crio-treated free-float barrel, a sculpted bolt built for strength and positive locking, fast 60-degree throw, and a carefully engineered stock system designed for comfort, custom fit, and marksmanship enhancement, the LUPO series bolt-action rifles represent the pinnacle of factory centerfire rifle performance.

SUB-M.O.A.

All Benelli LUPO field rifles include a 3-shot MOA guarantee with premium ammo.

All LUPO HPR rifles include a 5-shot .75" MOA guarantee with premium ammo.

“ The BE.S.T. Lupo is Benelli’s bid to reinvent the hunting rifle, and there’s no doubt the Italian brand is taking that task seriously. An accurate rifle that’s overflowing with forward-thinking rifle technology, the Lupo is going to continue to win fans as more hunters learn to love all that these guns offer. **Brad Fitzpatrick - American Hunter** ”

“ I think that Benelli’s sub-MOA accuracy statement is conservative. I contacted them and suggested that they offer a 3/4-MOA accuracy guarantee with the Lupo because I believe these rifles are entirely capable of that (or better) when paired with quality ammo. This is one of the most accurate out-of-the-box hunting rifles G&A has encountered. And it should be! The suggested retail price of the Lupo is \$1,699, which places it between the budget category and the high-end custom segment. **Eric Poole – Guns & Ammo** ”

LUPO

Benelli's Lupo bolt-action rifle has been field-tested on hunts across the globe and found to be a truly exceptional firearm. Not only has it delivered sub-MOA accuracy and decisive on-game performance, but hunters also rave about ergonomic and customization features that make it fit like it was made just for them. From the threaded muzzle to the recoil-mitigating Combtech® cheek pad, the Lupo is packed with Benelli features and technology shooters praise and declare unrivaled among hunting rifles. The Lupo is now available with Benelli's exclusive industry-leading BE.S.T. surface treatment and is available in three popular big-game calibers.

In addition to Benelli's industry-leading 10-year warranty, BE.S.T.-treated barrels and parts carry a warranty against rust and corrosion for 25 years from the date of purchase.

• **Accuracy:** The Lupo features a precision Crio-treated free-floating barrel attached to a hardened-steel barrel extension that is bedded to a steel block in the alloy receiver. The result is precision sub-MOA accuracy... shot-after-shot.

• **Advanced Ergonomics and Adjustability:** The shape of the Benelli Lupo has been optimized for control. The chassis-style configuration of a separate stock, receiver and forend allow the shooter to customize the Lupo to one of 36 drop and cast stock positions with the included shims. Further fit adjustments can be made by using the included length-of-pull spacers. Optional fit choices include extra-high and standard cheek pad styles and one optional-length butt pad.

• **Comfort:** The Benelli Lupo tames recoil with a patented built-in Progressive Comfort system and a Combtech cheek pad. The trigger is crisp and with an adjustable trigger-pull weight. Finger reach to the trigger is also adjustable with included spacers which can be placed between the receiver and the stock. The double-stack box magazine is incredibly easy to load inserted or out of the gun. The ambidextrous top safety is easy to access. AirTouch Grip surfaces allow for a safe and firm hold on the rifle.

LUPO BOLT-ACTION RIFLE, PROGRESSIVE COMFORT™
ITEM # 11900 Black synthetic.

The Lupo is Benelli's first bolt-action rifle. Sub-MOA accuracy, advanced ergonomics, and shooting comfort have been carefully engineered into this chassis-style hunting rifle that allows for exclusive fit and customization out of the box. Lupo is Italian for wolf, and the Benelli Lupo is destined to dominate the land the way Benelli's Super Black Eagle dominates the skies.

The Lupo is packed with innovative features, including seven exclusive Benelli patents. The result is a superb hunting rifle offering a customized fit, exceptional handling, and proudly carries a three-shot, sub-MOA guarantee.

LUPO STANDARD FEATURES

LUPO Bolt-Action Rifle
Benelli's Innovative Bolt-Action Rifle

Progressive Comfort

The Lupo tames recoil with a patented Progressive Comfort system built into the stock. Modified from Benelli's proven Progressive Comfort system used on shotguns, the system is engineered with sets of interlacing fingers that flex, absorbing much of the recoil before it reaches the shoulder. Decreased recoil, less muzzle flip and less anticipated recoil by the shooter result in a greater ability to stay accurately on target.

Stock Spacers for adjustable drop and cast

One of the truly unique features of the Lupo is the ability to adjust drop, cast and trigger reach with included shims. Shooters can achieve a customized fit out of the box without the need for expensive gunsmithing. Shims allow the stock to be set in one of 36 different positions, while the trigger reach spacers place the shooter's hand at an optimal distance from the trigger. Great fit equals better control... and increased accuracy.

Detachable box-type magazine

The detachable box magazine is a double-stack configuration with a partial divider that loads like a single stack. Cartridges can be easily loaded with the magazine removed, or smoothly top loaded with the magazine in place, holding five rounds without heavy spring pressure. The Lupo cutaway bolt works with the magazine, allowing the magazine to insert fully into the receiver without protruding from the bottom of the gun.

LUPO Barrel System

The Lupo was built for accuracy and the key is the Lupo barrel system. The barrel itself is free-floating and Crio-treated, resulting in a smoother and more uniform steel surface. The barrel is attached to hardened steel barrel extension bedded to a steel block in the chassis-style alloy receiver. The result of this unique design is precise sub-MOA accuracy.

LUPO HPR
BE.S.T.

LUPO HPR BOLT-ACTION RIFLE, PROGRESSIVE COMFORT*
ITEM # 15701 Tan/Black Webbing, Matte BE.S.T.

In addition to Benelli's industry-leading 10-year warranty, BE.S.T.-treated barrels and parts carry a warranty against rust and corrosion for 25 years from the date of purchase.

Benelli's all-new LUPO HPR establishes an enviable benchmark for a factory-guaranteed sub-MOA (3/4-inch, 5-shot) long-range shooting and hunting bolt-action rifle. Chambered for the most popular long-range cartridges (6.5 PRC, 6.5 CRD, .338 LM, .300 PRC, .300 WM, and .308 WIN), the new Lupo HPR matches a revolutionary custom-fitment stock system with a heavy-contour, straight-fluted CRIO barrel to deliver a long-range rifle that incorporates the function of a chassis rifle with the handling grace and accuracy of a custom bolt-action. This hybrid platform answers the call of open country big-game and varmint hunters for a rifle that delivers the far-reaching accuracy of a competitive long-range custom rifle with the agility of a true hunting bolt-action.

CRIO SYSTEM

One of the cornerstones of a precision rifle platform is proper fitment to the shooter's unique size and biomechanics. The LUPO HPR's all-new hybrid stock system provides the custom adjustability essential to bring out and enhance the shooter's marksmanship skills so they can make the long shots. Features include an 8-position comb height adjustment, interchangeable grip, stock spacers for LOP adjustment, and cast and drop shims to achieve optimal eye alignment behind the scope.

SPECIFICATIONS AND PRICES SUBJECT TO CHANGE WITHOUT NOTICE.

Most sporting firearms today differ little in terms of technology from those developed a century ago. That's why the design team at Benelli set out to create something completely unique, and succeeded with the R1 Endurance semi-automatic hunting rifle – a trim, fast-handling firearm with style to spare.

The R1 Endurance's action is based on Benelli's innovative M4 military shotgun used by the United States Marine Corps. It incorporates the auto-regulating, gas-operated (A.R.G.O.) system adapted for use with

centerfire rifle cartridges paired with a three-lug rotary bolt. The gas cylinder is positioned to allow for a short operating rod, resulting in less felt recoil than other rifles.

The free-floating, cryogenically treated barrel is mated to a sturdy steel upper receiver to offer outstanding accuracy and a secure platform for mounting optics. The lower receiver is anodized aluminum to reduce weight.

Combtech® Comb Pad Inserts

Benelli engineers created a new cheek-comb pad called Combtech, which greatly reduces facial impact and vibrations. The insert not only cushions the shooter's cheek during recoil, but it is also very smooth so the cheek can slide along its surface at the shot for added comfort. Available in standard/low comb, or raised comb for target shooting and scoped guns. Fits SBE3, ETHOS Cordoba BE.S.T., ETHOS SuperSport and LUPO rifles with synthetic stocks.

Range Series Bag & Gun Cases

Gear for a great day at the range

ULTRA RANGE BAG

Large enough for four boxes of shells, shooting glasses, chokes, a range towel and whatever else you might need for the day. Constructed of 1680D PVC-backed fabric, this range bag is built to last. EVA foam bottom, water-resistant zippers with custom pulls and removable internal dividers round-out the features on this premium bag. Measures 17" x 10" x 8".

ITEM # 94050 Black

GUN SOCK

Most gun cases hold in moisture, promoting rust. The Benelli gun sock actually lets the gun breathe and its material is impregnated with VCI to keep your gun lubricated and protected from rust.

ITEM # 90505 Black
ITEM # 90506 Red

A. RANGE SHOTGUN CASE

Attractive and durable case constructed of 600D PVC-backed fabric with custom-pull, water-resistant zippers. Snag- and tear-resistant 600D interior fabric lining. 53" case. ITEM # 94020 Black

B. RANGE RIFLE CASE

Attractive and durable case constructed of 600D PVC-backed fabric with heavy-duty zippers. Center pocket features an internal strap to keep binoculars secure during transport. Snag- and tear-resistant 600D interior fabric lining. 49" case. ITEM # 94025 Black

TACTICAL SHOTGUN CASE

Attractive and durable case constructed of 600D PVC-backed fabric with heavy-duty zippers. The back of the case features stowable backpack shoulder straps and the interior provides adjustable options for securing your firearm during transit. Snag- and tear-resistant 600D interior fabric lining. 42.5" case. ITEM # 94021 Black

Ducker & Lodge Series Gear
Simply Perfect for the Range or Field

A. DUCKER BACKPACK/BLIND BAG

An easy-carrying pack that's constructed of 600D PVC-backed fabric, making it very rugged and water resistant. This feature-rich bag includes: external shell holders, a hard-shell glasses pouch, custom zipper pulls, reinforced straps, and a padded, breathable back. The self-supporting EVA bottom design and easy-access zippered top make this pack ideal for any blind. Measures 17" x 7" x 12".

ITEM # 94031 Max-7™ ITEM # 94035 Bottomland™

B.

C. DUCKER PRO BLIND BAG

Securely transport everything for your hunt with the Ducker Pro Blind Bag. Constructed of 600D PVC-backed fabric, it features an EVA foam bottom, heavy-duty zippers and pulls, and strategically designed pouches and dividers to optimize organization. Measures 20" x 12" x 11".

ITEM # 94043 Max-7™
ITEM # 94046 Bottomland™

C.

D. LODGE DOVE BELT

Transporting and storage of birds and shells on the Dove Field is a literal snap with the Dove Belt system from Benelli's Lodge Collection. Constructed of waxed cotton, the shell pouches feature mechanical snap closures to ensure they stay either open or closed, while the game pouch uses magnetic snaps to keep game where you put it. A leather belt and water bottle holder round out this handsome offering.

ITEM # 94085 Olive Tan Canvas

D.

E. LODGE RANGE BAG

Makes transporting shells around a sporting course or to the field a breeze. This shooting bag from Benelli's Lodge Collection comfortably holds four boxes of shells and is equipped with both carry handles and a shoulder strap. Constructed of handsome, diamond-stitched waxed cotton with leather accents and a durable 210-lined interior, it also features a zippered front pocket with elastic loops for convenient storage of choke tubes. Measures 7" x 12" x 8" and fits four standard boxes of 25 shells (up to 12ga).

ITEM # 94080 Olive Tan Canvas

E.

F. LARGE LODGE SHELL POUCH

Easily transport multiple boxes of shells, loose or otherwise, at once in the Large Shell Pouch from Benelli's Lodge Collection. Constructed of handsome diamond-stitched waxed cotton with leather accents and a durable 600D interior, it also features unique shell loops for immediate access to five shells when quick follow-up shots are required. Measures 9.5" x 9.5" x 5".

ITEM # 94070 Olive Tan Canvas

F.

G.

G. SMALL LODGE SHELL POUCH

Easily carry a box of shells in the field or on the range with the Small Shell Pouch from Benelli's Lodge Collection. Constructed of handsome diamond-stitched waxed cotton with leather accents and a durable 600D interior, it also features unique shell loops for immediate access to two shells when quick follow-up shots are required. Measures 5.5" x 8" x 3" and fits one standard box of 25 shells (up to 12ga).

ITEM # 94075 Olive Tan Canvas

DUCKER PRO GUN CASE WITH POCKET

Modeled after traditional floater cases, the Ducker Pro is a sleek and durable take constructed of 600D PVD-backed fabric. A water-resistant primary zipper provides a generous opening for easy storage to and from the snag and tear free 600D interior, while an oversized front pocket allows for easy storage of chokes and a choke wrench. 53" case.

ITEM # 94091 Max-7™ ITEM # 94095 Bottomland™

DUCKER GUN CASE

600D PVC-backed fabric with custom-pull, water-resistant zippers to protect your prized Benelli. Snag- and tear-resistant 600D interior fabric lining. 53" case.

ITEM # 94001 Max-7™ ITEM # 94005 Bottomland™

LODGE GUN CASE

This diamond-stitched, waxed cotton Lodge Collection Gun Case offers excellent protection. Durable 600D interior fabric lining resists snags and tearing. A hidden pocket allows easy storage of choke tubes and a choke wrench.

ITEM # 94060 Olive Tan Canvas
